The Division of Libraries of the State Board of Education has given the library 28 books of worth while reading, and has also supplied the reading table with "The Tech Engineering News."

In November, "Children's Book Week" was observed. A collection of children's books loaned by Rand, McNally was on exhibition at this time.

During the past year the Library has been open on Tuesday and Saturday evenings, also Saturday afternoons. In July and August the Library was open on Thursday evenings in addition to the regular time.

It is pleasing to note that the circulation for the year just passed was 317 more than that for the same period of 1922.

This last year we have been glad to co-operate with the teachers in our schools, by sending loan collections of books to the two upper grade rooms. Five State reading certificates have been issued to pupils of the eight and ninth grades. We hope that more of the pupils will earn one of the state reading certificates, by reading five books from the list approved by the State.

The following named magazines are to be found on the reading table: American Magazine, American Boy, Atlantic,

Century, Country Life, Harper's Monthly, Munsey's, National Sportsman, Review of Reviews, St. Nicholas, Scribner's, Woman's Home Companion, Our Dumb Animals, Popular Science Monthly, Life, Outlook, Youth's Companion, Tech Engineering News, Our World, and Dearborn Independent.

The Librarian wishes to thank the Board of Trustees for their hearty support and co-operation in the general management of the library.

EDITH L. FLETCHER,

Librarian.

Report of the Superintendent

North Wilmington, January 15, 1924.

Mr. Chairman and Members of the School Committee:

I have the honor to submit herewith my third annual report of the Middleton schools.

The following tables show the distribution of the pupils by age and by grade:

Distribution of Pupils, April 1, 1924

Distribution of Pupils April 1, 1921

	5	6	7	8	9	10	11	12	13	14	15	16	
1	4	12	3										19

8								4	3	4	2		13
Total	4	18	11	14	22	18	12	20	11	8	2		140

A comparison of these tables with those of last year reveals the growth in school membership. It should be recalled that the action of the committee in raising the entering age for the first grade last September excluded many who otherwise would have entered this year. While this action kept the membership of the first and second grade room to a fairly reasonable number for one teacher, it provided merely a temporary solution of our one serious problem. The pupils excluded this year are certain to appear next September as a substantial addition to a large entering class and the total number may and probably will greatly exceed the seating capacity of the primary room.

Overcrowding is always a serious matter but it is especially serious in these grades. Pupils entering school for the first time require much more individual attention than those accustomed to habits of study and school routine.

This year, with forty-seven pupils and two grades, the work has proved a serious tax for the teacher. Next year the overcrowding is almost certain to interfere, possibly to a dangerous extent, with the efficiency of the school and with the rights of these children to a fair start in their education.

Our building as it is offers practically no opportunity for expansion and the time seems near for the town to seriously consider a new and modern building better suited to the needs of the growing school membership. The problem mentioned above does not require immediate action in this regard but it indicates the necessity for a careful study of our needs and of our budget requirements.

The alterations in the building demanded by the building inspectors to provide better means for fire protection and greater reduction of risk to the pupils have been completed at considerable expense, although this item was altogether unexpected. In addition to several small repairs to the building,

seats and desks of the latest adjustable type have been purchased for Miss Knight's room and all worn out or broken furniture has been replaced by new, with the exception of Miss Manning's room which is still equipped with the old rigid type. It is to be hoped that adjustable furniture can be purchased for this room during the coming year.

It is gratifying to report a year of very satisfactory progress and growth. The teachers who attended summer school did work of a high order and have already contributed much of value to the improvement of the school. All our teachers and supervisors are professionally alert and are working hard and enthusiastically and it is due to their helpful co-operation and that of the school committee that our schools are maintained in such a high degree of efficiency.

Respectfully submitted,

RALPH R. BARR,

Superintendent of Schools.

Report of the Supervisor of Music

To the Superintendent of Schools and School Committee
of Middleton, Mass.

I herewith submit to you my annual report on the progress of the study of music in Middleton schools.

Many rote songs have been taught in the primary grades. Toward the middle of the year first grade pupils began reading from the staff. Books containing simple scale exercises were used by the second grade.

Third and fourth grade work was a continuation and extension of the second year: with fewer rote songs and more experience in using the music books. Some written work is

required in all the grades except the first. The grammar grades are doing good work giving some time to chromatics and minors.

A new series to supplement the books now used is needed. It is hoped that the children will be as capable in music as they are becoming in every other subject.

I am grateful to the teachers for their faithful service, and wish to thank the Superintendent and Committee for their help.

Respectfully submitted,

GENIE F. KIMBALL,

Supervisor of Music.

Report of the School Nurse

Middleton School Committee :

I submit the following report for the school work from September, 1922 to June 22, 1923.

Ten children reported to school without vaccination. Notice sent to parents.

Entire school was weighed and measured in October and May. 48 under weight children were formed into nutrition classes and reweighed every four weeks. Heads examined for pediculosis every four weeks; six cases excused from studies during the year for a period of 48 hours.

Medical examination made by Dr. A. Nichols on 163 children.

112 notices sent to parents for minor causes.

Six (6) very bad diseased tonsils cases. Parents urged to have them removed as soon as possible.

24 poor posture cases; exercise and deep breathing was carried on in the school room with the assistance of the teachers. Good results have been obtained.

143 surgical dressings have received treatment. Health crusading work started in the V, VI, VII and VIII grades. Score cards for home work given to all children, renewed again March 1, taking on III and VI grades. 41 buttons were awarded for good work.

Notice sent to parents asking for their consent for the Schick test May 31.

Friday June 1, 61 children received the Schick treatment from Dr. Jones.

June 6th, Dr. Jones read the arms and found 58 positive, and three negative.

55 received the serum treatment.

Hot cocoa was served to the children at noon except Tuesday which day we served "cream soup."

Eight babies registered at our Mothers' conference held after school session during September and October.

And in closing I wish to thank the School Committee, Superintendent of Schools, Principal of Center School and Teachers, for their assistance the past year.

Respectfully submitted,

MARY E. ROUNDY, R. N.

July 24th, 1923.
